

SECURITY Starter Kit

Intrusion Detection with Instant Group Alerts

MivaLife Security Starter Kit is an integrated home intrusion detection solution for multiple locations to provide mobile push alerts to multiple tiers of users. The security system will alert you when an intrusion occurs. Enhancing the system with a MivaLife Video Add-On Kit, will also provide push alerts with video and real-time video and audio communication to all authorized users at multiple locations for immediate action. MivaLife puts home and business security in your hands and gives you the peace of mind you deserve.

Security Kit Features:

- The intelligent hub MivaShuttle manages all MivaLife devices on your network
- Alerts you and your group of users when doors or windows are opened
- Irritate and discourage intruders with a 110db alarm while notifying and alerting others
- Arm and disarm your entire security system

x1

Note: It is highly recommended to add a MivaLife Video Add-on Kit (two wireless cameras) with motion detection and night vision features to stream real-time video and collaborate with other MivaLife devices on your network to automatically record video when events are triggered.

Application Scenarios

- While away, you will be informed of what's going on at home in case an intrusion occurs or a door/window is opened.
- With a Video Add-On Kit installed, you will be able to view real-time video of your home to assess the situation, or call your connected friends, family, or police for help.
